Want to check your healthcare account balances and submit receipts anywhere, anytime?

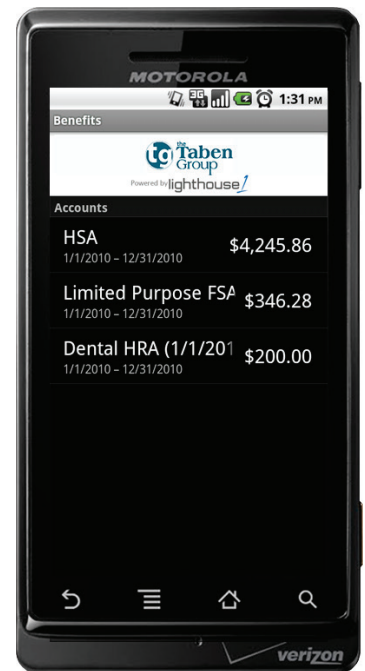

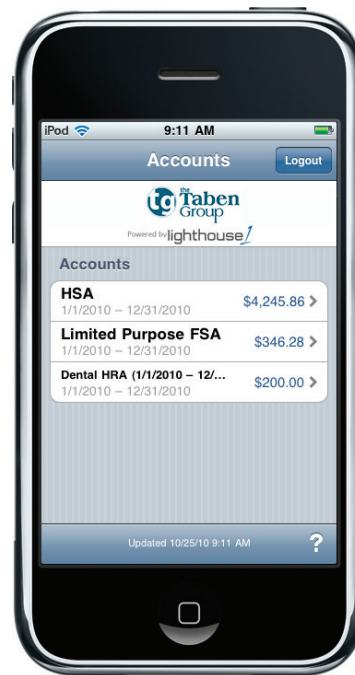

There's an App for that! Today there are mobile apps for everything from tracking your calories and exercise, to getting directions, to making restaurant reservations. So why not one for managing your healthcare accounts?

Now you can use your smartphone to easily check your available balances, submit claims, and upload pictures of receipts using an iPhone, iPod Touch, iPad or Android-powered device with TabenFlex Mobile, powered by Lighthouse1.

If you're one of the millions who are riding the smartphone wave, you know how convenient it is to use mobile apps. Now, by using your smartphone to access your HRA, HSA and/or FSA account balances, you'll know how much money you have available to spend on qualified medical expenses at the time of purchase.

You'll also be able to:

- Check FSA, HRA and HSA account balances
- File new claims
- Upload receipts using your mobile device's camera
- View account activity and receive alerts via text message
