Services and Expenses Eligible for Reimbursement under the Flexible Spending Account Program:

For Health Care FSAs, services listed in this document are eligible for reimbursement if the services are: rendered by a health care professional appropriately licensed or certified in the state in which he or she practices; and performed within the scope of the health care professional’s license.

For Dependent Care FSAs, services listed in this document are eligible for reimbursement, if the services are for an individual you claim as a dependent on your Federal Tax return who is under 13 or incapable of self-care (if you are part of a divorced household, you must be the custodial parent for more than 50% of the year); and necessary to allow you and your spouse, if married, to work, look for work or attend school full-time.

What FSA & HSA expenses can be reimbursed?

You can use your Health Care FSA or HRA to reimburse yourself for medical and dental expenses that qualify as federal income tax deductions (whether or not they exceed the IRS minimum applied to those deductions) under Section 213(d) of the tax code. HRA eligible expenses are determined by your employer.

Eligible expenses may vary from employer to employer. In case of a conflict between your plan documents and the information in this document or website, the plan documents will govern. Please refer to your employer’s Summary Plan Description for more information about your covered benefits.

In the following list, the Account Type is marked as either “HCFSA” or “DC FSA”. Please note,

HCFSA = Health Care FSA

DC FSA = Dependent Care FSA

Please note, all “potentially eligible expenses” are required to be accompanied with a letter of medical necessity signed by the participants’ health care provider in order to be considered eligible for reimbursement. The letter must include the diagnosis or symptoms for which the participant, spouse or dependents are being treated, along with specific information on how the product/service is intended to alleviate or improve function. This letter is to remain on file for one year from the date written.
